

LOADING PROCEDURES FROM REYNOLDS HALL

- There are (6) bays at the loading dock. (3) bays are provided for access to the Troesh Studio Theater. (2) are for dumpster skids, and (1) is for food and beverage loading only. Dock levelers are provided on the (3) stage loading bays.
- There is no access for Scenery or Freight from the street levels
- Dock Roll Up Door dimensions: 9'-2" (w) x 12' (h)
- Each stage loading bay will accommodate a 28' tractor with sleeper and a 53' long trailer. Maneuvering yard is provided for access to the dock for trucks and trailers smaller than 45'. Semi-trucks are to back in from the roadway street. Scenery, packaging and other materials off loaded from the Reynolds Hall need to be loaded onto the freight elevator and taken to basement level. From the basement, the push to the Boman center elevator is approximately 424'. Note: Size of Boman freight elevator door, 5'-6" (w) x 7' (h). Inside dimension 10'-3" (w) x 5'-8" (d) x 7'-4" (h)

TRUCK PARKING

- Trucks can be staged at the loading docks, at the center's discretion. Long term and off-site accommodations require prior arrangements. The ramp leading to the load in area must be kept clear at all times.

ROOM DIMENSIONS

- Floor Area - 47' (d) x 62'-8" (w) (2,951 square feet)
- Floor to ceiling grid - 25'-2" (h)
- Load in door access - 6'-10" (h) x 4'-10" (w)
- Split level balance bar 53' in length located on the North wall placed in front of 11'-8" (h) x 52' (w) glass mirror
- 1.5" diameter wooden rail: top bar 49.25", lower bar 37.5 "

STAGE/AUDIENCE CHAMBER

- Tongue and groove maple floor sealed in natural finish. Surface can't be painted.
- Resilient rubber pads are provided in subfloor for performer injury protection
- Floor is able to withstand 125 lb. point loads. Additional point loads TBD based on width and stage location. Note: The use of duct, gaffers and/or double face tape must be pre-approved.

CEILING GRID RIGGING

- Studio floor to ceiling grid 25'-2"
- Ceiling grid outer sleeve is 2" diameter 18 gauge stainless steel tubing with an inner schedule 20 steel pipe. All pipes are joined via cast coupler.
- Spacing between couplers 3'-8"
- Load capacity 100 lbs. per linear foot evenly distributed. Note: The use of C-style clamps with center locking bolts are not permitted.

PERIMETER WALLS

- Interior walls painted in a comfortable medium pastel green. Benjamin Moore #473.
